

Name: _____

Date: _____

All Washed Up

Instructions: Sudsy Skin has hired you to design a soap bottle for their new line of soaps. They have created three new soaps for kids: one for fighting germs, one for cleaning cuts and scrapes, and one for preventing acne. Pick one of the new soaps to focus on, then start designing! Remember, Sudsy Skin wants more than a pretty bottle. They want you to include information about why it's important to take care of your skin by using this soap, and also directions for using the soap.
